NOTES ON SOURCES

The following lists of current bibliographies and of other periodicals comprise those checked through regularly in the preparation of Population Index. The endeavor is to see each issue as promptly as possible, though some lags are unavoidable. In addition, a number of other bibliographies and periodicals are seen less consistently. In the list of periodicals, medical, geographical, agricultural, historical, political, and East European literature is lightly represented, because primary reliance has been placed upon outstanding bibliographies, notably on the Current List of Medical Literature, Current Geographical Publications, the Bibliography of Agriculture of the U.S. Department of Agriculture, the American Historical Review, the American Political Science Review, and the East European Accessions Index and Monthly Index of Russian Accessions of the Library of Congress. This listing of sources excludes statistical and other official publications that do not contain substantive articles, serial publications that are not periodical, and of course, the books and monographs seen.
